Kerava, April 5th, 2000

Dear Margaret,

Thank you for your letter dated 28th of February 2000, the contents of which have been thoroughly discussed with District Chairmen and Deputy Nat Rep.

As to the position of Secretary and Treasurer combined, we hope, that you could still reconsider it and accept the position to be held by the same person at least for the first year for the following reasons:

- Our membership is slightly decreasing and it is difficult to have officers for districts and clubs. Especially difficult it seems to be for clubs. When we decided with the districts of the founding of the National Council and afterwards elected the officers for it, we had in mind to give so support to the districts, clubs, and members. Thus they could get in keener touch with each others, feel the togetherness, and have more faith to the future of our movement than the National Representative alone could give. We are now quite near to start and districts are eagerly waiting for this start.
- For economical reasons the number of the members in the council is tried to keep as low as possible.
- In the council the Secretary and Treasurer have also duties in common.
- In Finnish associations it is possible to unite the duties of secretary and treasurer, and we did not find anything against this in the documents received from you either.
- Kaisu Paloranta, who was elected to this position is aware of her both responsibilities. She is a very competent lady and fulfills the qualifications of both the treasurer and secretary.

Looking forward to your favorable answer.

With kind regards

Rauni
